

City of Haverhill

Multilevel Intermodal Parking Facility in the City of Haverhill

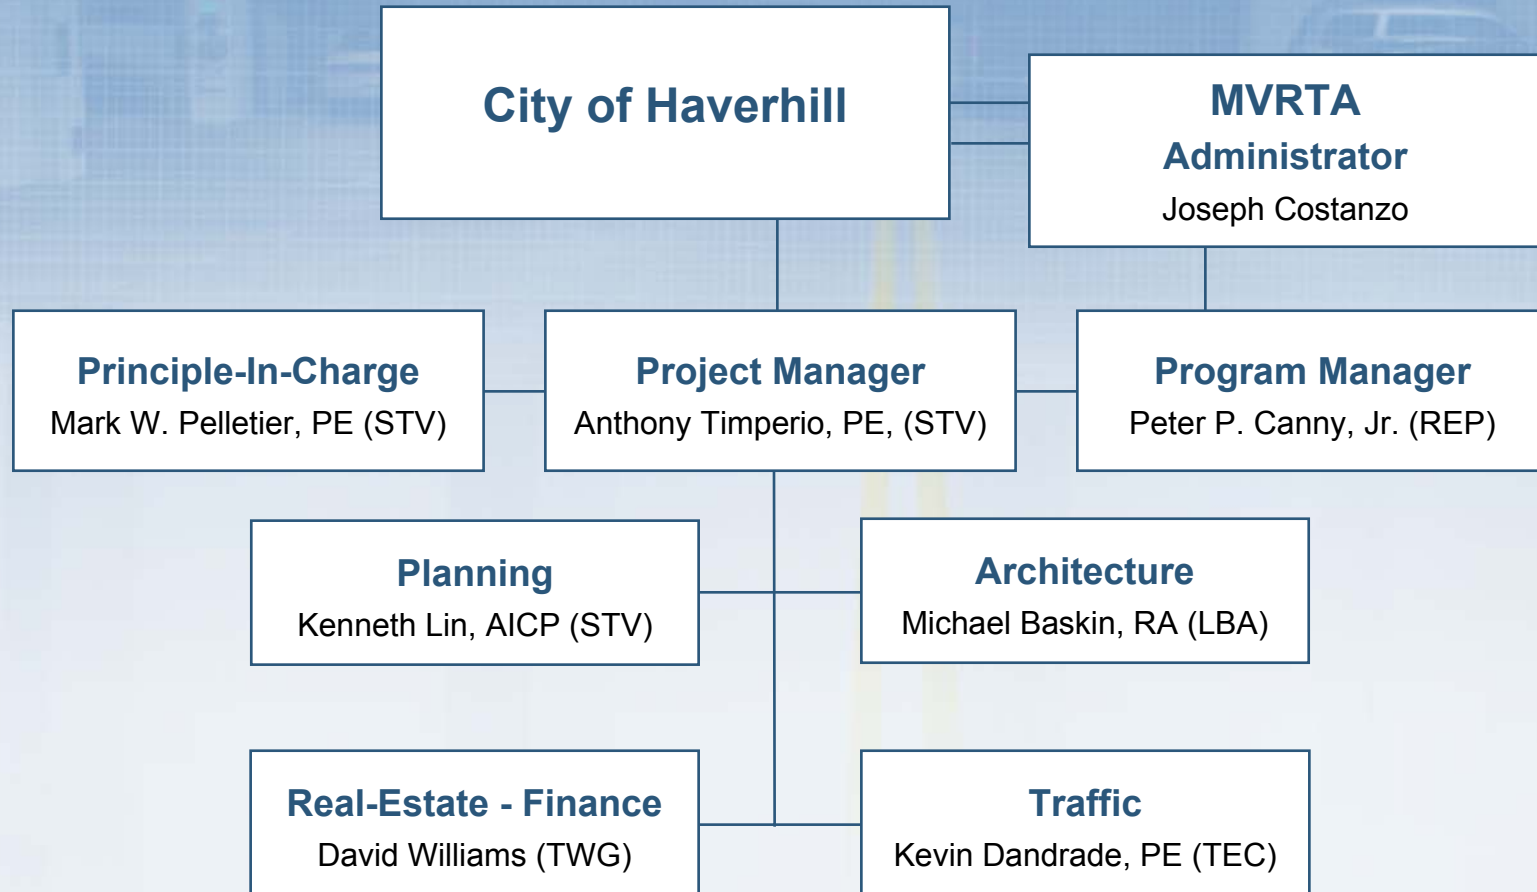

Opening Remarks

- **Mayor James Fiorentini**
- **Ted Van Nahl – Chief of Staff**
- **Joseph Costanzo – MVRTA**
- **Peter Canny – Program Manager**
- **STV Design Team**

Design Team

- **STV Incorporated**
Project Management, Planning, Civil and Environmental Engineering
- **Lozano Baskin Associates**
Architecture, Urban Design
- **The Williams Group**
Real Estate Advisors
- **TEC**
Traffic Engineering

Project Organization Chart

Project Program

- 1. *MVRTA's Role* ~ MVRTA and City of Haverhill signed Memorandum of Agreement (MOA) to direct and oversee STV in site selection process. Upon site selection, MOA will be extended/expanded to include project management through construction and operation.**
- 2. *FUNDING* ~ Two primary sources of Federal Funds appropriated in the SAFETEA-LU Transportation Bill passed by the House and Senate for the design and construction of the Haverhill Inter-modal Parking Facility. Currently programmed in the State Transportation Improvement Program (STIP) FY 2006-2009.**
 - SAFETEA-LU \$4,670,832 Federal Transit Administration (FTA) Earmark
 - SAFETEA-LU \$2,592,780 Federal Highway Administration (FHA) Appropriation
 - Both appropriations require a 20% non-federal match.
 - Both were subject to a 1% Congressional Mandatory Rescission in FY'06
 - The FHWA funds are also subject to Congress' annual Obligational Authority limits, assumed to be 87%.
- 3. *PROCESS* ~ Upon site selection and control, MVRTA applies for these funds through grant applications to FTA. The FHA funds come to the State through the Executive Office of Transportation (EOT) and Mass Highway Department (MHD).**
- 4. *MVRTA Transit Station at Washington Square* ~ renovate or move the Bus Station at Washington Square. Two previous FTA grants in the amounts of \$3,200,000 and \$460,000 to be used to construct a bus station in Haverhill.**
- 5. *SITE CONTROL* ~ FTA requires that MVRTA possess site control prior to funding for design and construction.**
