JANUARY 26, 2011

PLEASE POST
ANTICIPATED OPENING

POSITION: Public Health/School Nurse (DESE Certified/Civil Service position)
Full-time position
Inspections & Health Regulations Department

HOURS OF WORK: (Schedule to be determined) (42 weeks per year)

SALARY: \$809.97 per week (\$34,018.90 per year to start for FT positions)
(According to Contractual Salary Schedule)

GENERAL STATEMENT OF DUTIES AND RESPONSIBILITIES:

Promote and maintain optimal physical and emotional health of students. Conduct health screening programs; vision and hearing postural, heights and weights and blood pressure. Notify parents on appropriate forms of failure and follow up on referrals. Submit medical forms for core evaluation and work with core team to set and maintain individual care plans and recommendations for individual students.

Provide first aid and emergency care in injury or illness to school population as documented in "Standing Orders for First Aid in School." Notify parents of illness and accidents, which occur during school hours and fill out appropriate accidents form. Monitor safety in school buildings and playgrounds and school cafeteria for food service and handling. Complete a medical needs list of students in the building and supply copies to appropriate personnel i.e. administration, physical education and appropriate teaching staff.

Administer immunizations required by Mass. Dept. of Public Health for school attendance and help nurses in other districts as necessary. Cover other districts when nurse is absent or ill. Keep daily log of students seen in health room. Maintain Health Records and document pertinent information. Supervise and administer prescribed medication and treatment during school hours. Inform teachers and staff regarding medical issues that may affect them. Act as a health resource person, have knowledge of community resources, and make appropriate referrals.

Maintain Health Room and assigned equipment and supplies. Assist in investigation of Communicable disease within the community and participate in any needed clinics. Counsel students and supervise treatments of individuals with specific health needs i.e.; child neglect and abuse, drug use and abuse, nutrition and teen pregnancy. Make home visits and follow up if necessary. Attend any Public Health Programs, seminars, or Professional meetings.

Nurse may be assigned to duties (see following descriptions A & B) as directed by the Nurse Leader:

A) Classroom Nurse: Independently works as a Classroom Nurse. Assess and supervise medical needs of special education students in classrooms within the school district. Observe students and detect health needs. Administer medications and treatments as prescribed by physician. Treatments may include g-tube feedings, suctioning, positioning and other duties as collaborated with staff. Assist with parent conferences and be a liaison between parents, staff and physician. Update and create nursing care plan for each student in the class. Document treatments on student's health record and communication book as needed. Communicate with parents and staff in the event of injury or illness, assess student upon readmission to school after contagious illness. Administer first aid as needed to the students in the two classrooms. The nurse must be able to function independently, prioritize, and have good organizational skills and be able to multitask.

Submit medical forms for core evaluation and work with core team to set and maintain individual care plans and recommendations for individual students. Weekly report to building nurse on student health status. Maintain confidentiality of student's medical issues. Nurse should have knowledge base of building nurse assignment in the event assistance is needed.

B) 1:1 Nurse: Independently function as a 1:1 School Nurse. Meet assigned student at home and ride the bus to school spend the day with the student. Observe student and detect health needs. Administer medications and treatments as prescribed by physician. Treatments may include g-tube feedings, feeding suctioning, positioning, range of motion exercises as collaborated with staff. Help with activities within the classroom. Toileting and changing as needed when assisting a student. Assist with parent conferences and be a liaison between parents, staff and physician. Update and create nursing care plan for student. Document treatments on student's health record and communication book as needed. Communicate with parents and staff in the event of injury or illness, assess student upon readmission to school after contagious illness.

Submit medical forms for core evaluation and work with core team to set and maintain individual care plans and recommendations for individual students. Weekly report to building nurse on student health status. Maintain confidentiality of student's medical issues. Nurse should have knowledge base of building nurse assignment in the event assistance is needed.

The duties listed above are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.
